Dr. HULLHEN, as we have learned from persons who attended the last sitting of the Legislature, for a gentleman who had given little attention to such affairs, made a capable and useful member and did no discredit to the city he represented. But he has found the place so little to his taste, and such an interference with professional duties, tha he has felt constrained to give it up. There will be no lack of candidates, we suppose, to fill the vacant chair.

SPAIN seems to be verging to a condition favoring the belief that the maintenance of a Republic is possible there. It is eight months since King Amadeus abdicated and the recent condition of chaos began, but at length the government appears to be getting the better of its enemies. It is not only conquering the insurgents, but is making successful headway against the Carlists, whose internal dissensions bode no good to their cause. Should tranquility be restored in Spain and her Republic successfully establish iself, this will be another triumph of American principles in Europe.

The Agricultural Fair---First Day's charleston, W. Va., Sept, 30, '73. CHARLESTON, W. va., sept., 30, '73.

Our State Agricultural Fair opened up, at the "permanent seat" to-day. It is a very fair affair for a County Fair, but rather puny for a State exhibition, (however it will be much better when it gets

In addition to a hocus-pocus "Punch and Judy" tent show, there is a huge dancing pavilion about 50 feet square with an elegant floor on which to "tip the light fantastic." It is covered with a white canvass and sided with pine brush. They keep up good music and an eternal hillabaloo, for people will dance if the plow stops. New York, Oct. 3.—Association Hell was crowded to night, one section of the Evangelical Alliance being in session

there.

Rev. A. De Cappett, of Paris, was introduced and said that Protestantism in in France was comparatively weak. The organization holds its own, but has not sensibly increased. Before the late war there were about 1,000,000 Protestants in the

six houses of worship. The salary of a country pastor, on which he and his family have to live, is only \$380 a year. Many of the congregations are composed of converted Roman Catholits. A pastor of one of the free churches is an honored member of the National Assembly, where his voice is heard in detence of political liberty, as in the pulpit in defence of religious freedom. Let the Republic stand five years more, and he believed that they should have a complete separation of the Church and State, as in this country.

The Republican journals of every shade of opinion support all the candidates for the Assembly who pledge themselves to vote for a Republic, without regard to their antecedents. Petitions are in circulation addressed to the wavering Deputies, and urging them to support the Republic.

patch says Central Asia is in an extensively disturbed condition. Civil war is raging in Khokand against their ruler, Khundayar, Kahn, the Turcomans of the deserts around Khiva are fighting the Russians, the Afghans are fighting the Russians, the Afghans are fighting the Persians and carrying on dangerous intrigues with the Emirol Bobbars, and the Yakoub Bego of Kashgir is fighting the Chinese at the extreme line of their Empire. Bokahara seems to be a point of contention. It is altogether probable that the Emperor will before long be compelled in self-defence to take towards Bokhara, the same course he has recently taken towards Khiva, and permanently occupy the territory and reduce it to the condition of a Russian dependency.
